About Us

We have, over the years increased our range of products to cater to the growing needs of our customers. In addition to that, we also commit to offer a high level of commitment & dedication to serve our customers at today's fast-paced manufacturing environment. You will find our customers in various industries such as electronics/semiconductor industry, automotive industry, medical industry, food industry, steel mills, plastic industry, paper mill, printing industry, ports, PCB industry, Government & Universities & many more. For this progress we are grateful to all our loyal & supportive customers who will only demand the very best for their industries.

(Washpipe)

Deublin Rotating Union

Allows transfer of pressurized fluid from a stationary source into rotating machinery for heating, cooling or transfer of fluid power. We provide a wide range of specifications to cater for various media such as steam, air, water, coolant and oil

Deublin Slip Ring

Explore our precision-engineered slip rings for seamless electrical connections in rotating machinery. Tailored for aerospace, robotics, wind energy, medical devices, and more, our quality and customizable solutions ensure reliability in diverse industries

Barco Swivel Joint

An effective component to use when a process requires transfer of medium from a stationary source, such as a supply pipe, into a low-speed rotating piece of equipment. Available for steam, oil, water and air application

Hose

We offer wide range of hoses and fittings to cater for various industry applications. Our sales engineers are competent in evaluating and recommending the most suitable yet economical solution for your process

Universal Joint Shaft

We calculate accurate torque requirement to achieve a perfect match on your application ensuring longer life span of your equipment. Options available from common DIN, SAE flange, wing type, slot type to customized connections

Coupling

We provide multiple types of couplings designed to suite the right application and assisting our customers to make the right choice. The couplings ranged from gear coupling, grid coupling, chain coupling and more complex hydraulic coupling

Simogear

Siemens provides a diverse range of geared motors as part of a comprehensive global drive and automation concept SIMOGEAR supports flexible design routines, enabling you to freely choose suppliers and update drive solutions economically

Nakakin Pump

Nakakin Co., Ltd. excels in high-quality rotary piston pumps, vital for industries like food, cosmetics, pharmaceuticals, and chemicals. As the sole lobe pump manufacturer with its foundry, Nakakin guarantees precision and durability, making these pumps efficient with minimal maintenance needs

Poggi

Compact, durable gearbox solution tailored for precise power transmission in tight spaces, ensuring smooth operation and maximum efficiency for a wide range of industrial applications

Elcis Encoder SRL

Specializing in position transducers since 1974, addresses customer concerns with devices meeting rigorous requirements. Leveraging technical expertise, we provide comprehensive solutions for industrial automation, catering to current and future needs.

Kyzen Cleaning Agent

Each product in the line has been specially formulated for a variety of cleaning and protection processes such as cleaning circuit boards, parts and tooling maintenance

Leak Test Instrumentation

Cincinnati Test Systems specializes in producing leak test machines for medical, automotive, defense, aerospace, and other industries. With over 30 years of expertise, we offer global solutions in pressure decay, vacuum decay, mass flow, helium leak, and more.

CTS Connect

CTS provides a standard range of pneumatic, manual, and luer connectors, along with custom seals. Designed for user-friendly operation, durability, and reliability, our connectors and seals meet diverse needs

We Provide

SERVICE & REPAIR

Mechanical: Rotating Union, Universal Joint Shaft
Every rotating union is subjected to water, hydraulic, or air pressure testing and thorough physical inspection without any exception.

MACHINING WORKS

Quality Works / Customize / Small Quantities / Fast Delivery
